Business Services

Establishing a business in Mainland China can be a challenging task and one that requires professional expertise to negotiate the process. When setting-up and maintaining operations in China, it is extremely important that a company fully understands and is wholly compliant with PRC regulations due to the close links between the business and political environment.

Market Entry Consultancy

LehmanBrown International Accountants provides Market Entry consultancy, Company Registration and Permanent Establishment services, Liquidation, Bankruptcy and Deregistration services. We also provide Due Diligence investigation support, background/credit investigation and M&A Advisory for our clients.

Corporate Establishment & Maintenance

At LehmanBrown, we are fully equipped to assist our clients in setting up Wholly Foreign Owned Enterprises (WFOE) and Branches, Domestic Chinese Enterprises, Equity Joint Ventures (EJV), Cooperative Joint Ventures (CJV), Representative Offices (RO) and Non-Profit Organisations (NGOs). We provide annual filing of returns, license renewals and handle all other administrative requirements so that you can focus on your core business activities and thrive in China.

Deregistration, Liquidation & Bankruptcy Services

Sometimes an unfortunate occurrence, other times an opportune move, deregistration, liquidation and bankruptcy is never a straightforward process. LehmanBrown is able to offer advice for recovery plans as well on the more complex side of the liquidation procedure. In the current business environment, corporate restructuring and turnaround processes can often be closely linked to insolvency, which sometimes uncovers possibilities for saving the business. LehmanBrown has a thorough understanding of bankruptcy and liquidation procedures and the experience required for seeking out alternative financial sources. We are also able to offer proposals for re-organising debts and enable companies to get back on track financially.

HR Support Services

China has an incredibly complex system of Visa and Labour Laws which inevitably require expert guidance when going through the appropriate processes involved in Visa applications, Social Security and Housing Fund, Termination, Liquidation and other legal matters.

With our experience of handling a diverse range of situations for clients and our grasp of the Labour, Tax and Employment Laws, we can guide your business with these critical operational steps. Thereby, we can support the needs of our clients and to ensure effective operation for your business.

Outsourcing Services

Efficiency has always been an important factor affecting the profitability of a business. The importance of efficiency is especially relevant in the current economic climate where producing high profits is tougher than ever. Central to business efficiency is the process of recruiting, training and managing staff, which needs to be organised correctly.

Financial Management

LehmanBrown can assist companies in running their finance functions. We can offer our finance manager function, for planning, organising or directly controlling financial activities, and can offer interim financial management services including interim accounting and admin support. For periods where such management might be required, we offer a fully comprehensive Chief Financial Officer (CFO) function.

Treasury Management

Corporate treasury management in China can prove an incredibly complex process, but LehmanBrown is able to assist companies to establish and maintain efficient strategies to overcome the laws and regulations that hinder smooth running of operations in China. Our Treasury Management Services include Bank Account Set up and Management, including Payment Facilitation, Loan Account Setup, Capital Account Setup and Internet Banking, Foreign Currency Bank Account Setup, RMB Bank Account Setup and Foreign Currency Conversion.

Payroll Services

Due to constantly changing labour laws, demand for professional in-country payroll services is growing. LehmanBrown can offer professional, quick, and highly reliable accounting practices to relieve the stress of following payroll regulations thereby allowing you to focus on sales and growth. We provide a wide array of Payroll Services such as Payroll Processing Setup, and are well equipped to deliver specific services relating to local and expatriate employees.

Accounting & Bookkeeping

With China's fast growing accounting sector, it can prove difficult for many firms to keep on top of new legislation and accounting standards. Outsourcing your accounting and bookkeeping operations to LehmanBrown gives you access to our professional and experienced accounting team who will deliver tailor-made solutions in a manner which is fast accurate, clear and concise. Our budgeting and forecasting team can ensure that financial targets are met, and can guarantee efficiency and quality when it comes to financial statement preparation.

Secondment & Temping Services

To meet the requirements of our clients, we also provide short-term secondment and temping services. In the event of covering a maternity placement, taking on a large contract without headcount approval from head office, or simply being short staffed in your finance or HR department, LehmanBrown is able to support your business with our highly experienced and professional staff.

Taxation Services

China's rapidly changing tax regulations make on-going tax planning an essential part of doing business in China. Tax planning and organisation is paramount to avoid uncertainty or disagreement with the local tax office, especially in China where the tax system is relatively under-developed and inconsistent across different jurisdictions.

Individual Tax Planning & Filing (IIT)

Individual Income Tax (IIT) is a form of tax that needs to be paid with your salary in China. This is organised through the employer who should withhold the correct amount of tax before payment of salary, to make it easier for staff. An expatriate employee in China, given that certain criteria are met has the opportunity to reduce their IIT liability and be taxed based on the actual number of days spent living in the PRC

LehmanBrown has long-standing practical knowledge of tax servicing for individuals employed in both foreign and domestic enterprises. With our intricate knowledge of the Chinese tax system, even in these changing times, we are in an excellent position for you to receive the best IIT planning on all spectrums. We can help you achieve the most efficient way to structure your tax payments and we offer this service to anyone, whether you are a self-employed director of a new enterprise or an employee at a foreign multinational.

Corporate Income Tax (CIT)

Tax Planning is vital when doing business in China due to China's constant changes in corporate tax regulations. LehmanBrown offers extensive tax planning, encouraging the ideology that your business must be commercially viable and balanced to yield tax efficiencies and mitigate the risk of challenges from the tax authorities.

At LehmanBrown our clients have the opportunity to exercise many taxation services including developing Tax Optimisation Structures, Tax Restructuring for Mergers and Acquisitions, and can negotiate with tax authorities for a suitable Preparation and Submission of Tax Returns. We have vast knowledge of transfer pricing policies in line with both corporate international strategy and in compliance with Chinese tax regulations, so can limit the overall tax exposure for multinational companies.

From LehmanBrown's extensive network of international professional services firms, we are able to assist companies to effectively conduct tax due diligence, structure "off-shore" tax planning and company establishment.

Specialist Accounting & Risk Management

In an era of increasing globalisation, accounting has become far more complex than basic bookkeeping or tallying. Accounting has become a speciality in which it is increasingly difficult for in-house operations to meet requirements. There exists a myriad of global standards, shifting requirements and complex regulatory procedures that need to be met by cross border businesses.

Internal Controls

LehmanBrown's advisory takes a proactive approach in helping to establish or strengthen internal controls. We accomplish this through generating a framework of internal controls based on a controlled environment, risk assessment, control activities, monitoring and reviewing, and information and communication.

We are able to offer our experience in systems solutions and implementation, supporting companies through their entire system's development. LehmanBrown can assist you in assessing existing financial risks and providing the most appropriate treasury management strategy in order to face such risks head on, while still adapting to your individual business needs. Our expertise in SOX 404 Compliance can also enable you to ensure full compliance for your audit process with the Sarbanes-Oxley Act.

GAAP, SEC & IFRS Compliance

LehmanBrown is able to provide our specialist accounting expertise to meet the needs of our clients with GAAP, SEC and IFRS system requirements. We are able to provide support such as financial statement preparation, public company compliance, conversion to GAAP and the repackaging of accounts. Our team has a wealth of experience working with entities utilising US GAAP and those using GAAP from other jurisdictions. We are experienced in the preparation of IFRS financial statements, and are able to offer assistance on all levels in assuring compliance with SEC for public companies. LehmanBrown is experienced in the cleaning up, reconstruction and repackaging of messy accounting books, thus enabling accounts to be auditable and compliant with the requirements of any jurisdiction's GAAP.

Legal Services

Every business inevitably comes into contact with the law during the course of its operations, most often in the two spheres of Corporate Law or Labour Law.

The Chinese Legal System is inherently complex and can be daunting for both a young SME starting up, or at the opposite end of the spectrum a large mature multinational operation. Taking expert advisory will enable you to focus on the running of your business, both minimising and understanding the risks associated with matters such as Labour Law Compliance, Contractual Dispute Mediation, Debt Collection and Intellectual Property amongst others.

Labour Legal Advisory

Labour laws are complex and, importantly, personal to your staff. Management of labour, where quality labour is a precious resource, can mean a tricky balancing act between the potentially competing wants of employees and the employer.

Disputes over workplace practices, potential discrimination, unfair actions, internal conflicts, mistreatment and many other areas can be a timely and costly avenue for a company to navigate. Having a seasoned representative by your side can not only mean the difference between efficiency and wastefulness but the difference between a motivated and unmotivated set of employees. We are able to support our clients when conducting Legal Due Diligence, Litigation Proceedings, encountering Redundancy and Termination of Staff and Contract Reviews.

Corporate Legal Advisory

We at LehmanBrown, as professional and caring practitioners, always aim to fully understand our clients' perspective. We understand our clients' needs and various legal services that may be required under different circumstances. We can provide full legal advice to facilitate your needs quickly and efficiently. We are committed to resolving our clients' problems and provide timely advice that fits in your personal time frame. The time and efforts saved by our practice will undoubtedly improve your company's operations and enhance its capacity to respond to unexpected matters swiftly.

Other Legal Services

In addition to the aforementioned services in Labour and Corporate Legal Advisory, LehmanBrown can offer a wide range of different legal services including Dispute Mediation and Advisory, Trademark and Intellectual Property Advisory, Debt Collection Assistance, and Litigation Support.

Our international approach to all problems enables us to offer many different services, through all niche areas.

What is more, if there is not a service that we can offer at the high professional standards we hold, our working history within China has put us into contact with many outstanding partners, which we are happy to connect you with. At LehmanBrown, your problems are always our priority.

劳动法涉及的内容很多，对员工来说十分重要，确保企业的优秀人力资源不至流失并不容易，因为行业内存在着众多潜在竞争雇主。

工作中员工之间的纠纷、潜在的歧视、不公平待遇、内部冲突和其他很多类似方面都足以使企业走下坡路。而当企业拥有一位经验丰富的律师业务代表时，不仅能够高效率的处理问题，还能够激发员工的各种积极性。我们能够为客户提供尽职调查、代理诉讼、处理裁员、劳动合同解除以及审核劳动合同等相关劳动法律咨询服务。
